2014  
Annual Fire Safety Report**

**Introduction**

The Higher Education Opportunity Act (Public Law 110-315) (HEOA) was enacted on August 14, 2008, and reauthorizes the Higher Education Act of 1965, as amended (HEA). The Department of Environmental Health and Safety (EH&S) publishes this annual report for the University of Massachusetts Amherst in compliance with the reporting requirements contained in Section 485 of the HEOA known as Campus Fire Safety Right-to-Know.

Provisions of the Act require colleges and universities to report fire safety information to the U.S. Department of Education and to make annual fire safety reports available to the public and the campus community. These reports must include:

- The number of fires and the cause of each fire.
- The number of injuries and deaths related to a fire.
- The value of property damage caused by a fire.
- The number of regular mandatory, supervised fire drills; policies or rules on portable electrical appliances; procedures for evacuation; policies or rules regarding fire safety education and training programs provided to students, faculty, and staff; and plans for future improvements in fire safety.
- Descriptions of fire protection equipment (fire alarms/sprinklers) in each on-campus Housing facility.

This University of Massachusetts Amherst annual fire safety report provides information regarding on-campus student housing fire related incidents over the past three years and identifies the buildings and locations where fires have occurred. University of Massachusetts Amherst Residential Life fire safety policies and procedures are outlined with links directly to Residential Life web sites where additional details can be found. Provided in the report are descriptions of each residence hall's fire safety system.

Our report is published separately from the University of Massachusetts Amherst Annual Security Report which is published by the UMass/Amherst Police Department and available through their web site at: <http://www.umass.edu/umpd/pdf/ASR.pdf>.

This report is available through the Department of Environmental Health and Safety web site at: <https://www.ehs.umass.edu/campus-fire-safety-right-know-report-2014>.

## Fire Log

As required, Environmental Health and Safety also maintains the Fire Log. This log provides up-to-date information on fire incidents occurring in any on-campus student housing facility.

This log may be viewed at: <http://www.ehs.umass.edu/residential-fire-log>, or by stopping by the main office of Environmental Health and Safety, 117 Draper Hall from 8 a.m.– 5 p.m. Monday through Friday, excluding holidays. The information in the fire log includes information about fires that occur in residential facilities, including the nature, date, time, and general location.

Additional information can be obtained by contacting the Department of Environmental Health and Safety at: 413-545-2682, or by emailing Ed Mientka at: [ejm@ehs.umass.edu](mailto:ejm@ehs.umass.edu). Please visit us online at: <http://www.ehs.umass.edu/>.

## Fire Safety Policies, Procedures and Guidelines Residence Hall Community Standards

### Safety and Security (<http://www.housing.umass.edu/living/safety.html>)

At the University, personal safety and security is important for everyone. Observing safety precautions and knowing the established policies will help to prevent injury or mishap. To help ensure your safety and the safety of others:

- Observe the rules and policies.
- Know where to find the campus services numbers.
- Keep your hall and room secure.

Remember, you and other residents share the responsibilities for maintaining an atmosphere where you can all study quietly, live safely, and treat one another respectfully.

### Safety Precautions (<http://www.housing.umass.edu/living/caution.html>)

The office of Environmental Health and Safety (EH&S) is the agency responsible for establishing, implementing, and monitoring University policies and procedures related to fire safety, life safety, lab safety, environmental health, and related matters. Contact EH&S at: 545-2682, if you have concerns about safety in your residence hall, the reliability of an electrical appliance, or the habitability of your room.

The University has developed the following policies for your protection. Failure to comply with these guidelines violates the Residence Hall Regulations portion of the Code of Student Conduct and will result in disciplinary action.

## **Your Room at UMass Amherst (UMass Amherst Residential Life Community Standards)**

<http://www.housing.umass.edu/pdf/living/Community-Standards-2014.pdf>

### **Decorating Your Room**

Students are encouraged to decorate and personalize their rooms and doors as long as they follow these guidelines:

- Tapestries, pictures, posters, and other decorations may be hung on the walls and doors (no more than 50% of these surfaces) with rubber cement, commercial hanging putty and/or mounting strips. Nails, tacks, screws, and tape (scotch, masking, duct, etc.) may damage walls and should not be used.

Students in CHCRC may only use push pins to hang items on the walls. Using rubber cement, hanging putty and/or mounting strips will cause the paint to come off the walls.

- Decorations should not touch/obstruct smoke detectors or other fire safety system (pipes, sprinkler heads, etc.). Items may not be posted on or suspended from the ceiling, cover light fixtures, or cover the exit path from a room. All materials must be removed from the walls when you check out.
- Applying wallpaper, borders, or stickers, and/or painting or drawing on walls, doors, windows, shades, furnishings, or other UMass Amherst property is not permitted.
- Metal tracks on the walls in Southwest residence hall rooms can be used for lightweight wall hangings and bulletin boards only.
- Furnishings and personal items should be arranged so that egress from the room is not blocked or hindered.
- Decorative lights may be used for decoration if they are UL approved and do not touch or hang on any fire safety system components. Lights should be unplugged when residents are not in the room and during vacation periods.
- Holiday decorations must be flame-proof, fire-resistant, or fire-proof. Live trees, wreaths, corn stalks, hay, or other live decorations are fire hazards and are not permitted in rooms or on doors.
- You will be charged repair costs for any damage to the walls.

### **Room Furnishings**

- Students are issued a standard set of university furnishings for their room including extra-long twin bed and mattress, desk and chair, wardrobe/closet, set of drawers, bookcase, and trash/recycling bins. You are responsible for the furniture assigned to your room, suite, or apartment. Please do not remove furniture from your room as you may be subject to conduct action and/or billing for damages.

- Beds may be lofted or bunked using university issued lofting equipment and as instructed. For instructions on how to use loft beds see: [www.housing.umass.edu/pdf/Lofting\\_Kit\\_Instructions.pdf](http://www.housing.umass.edu/pdf/Lofting_Kit_Instructions.pdf)

- Water beds and wood furniture/construction of any other kind including lofts and book shelves are not permitted. Each room may have one small fiberboard table/shelf unit.
- Plastic storage bins or trunks are permitted for the storing of personal items in student rooms.
- Residents may possess upholstered or molded plastic furnishings that carry a label of California Test TB 117 or TB 133. Students with furniture that presents a fire or safety risk will be asked to remove it by Residential Life and/or Environmental Health and Safety staff.
- Furnishings and personal items must be arranged so as not to block heating units or egress from the room.
- Furnishings are assigned to common areas for the use of all residents of the hall. Students are expected to leave all common area furnishings in the area to which they are assigned. Common area furnishings may not be moved to student rooms or apartments. If students rearrange furnishings in common areas, they are expected to return the furnishings to the original arrangement.

### **Residence Hall Room Safety – Prohibited Items**

To maintain the safety of the residence halls for all students, the following items that may be a fire hazard or other hazard are not permitted:

- air conditioners
- candles\* *\*Please see Fire Safety section for information on candles for religious purposes*
- incense
- deep fryers
- electric cooking grills
- explosive materials
- facsimiles (replicas) of weapons
- firearms or lethal weapons of any sort
- fireworks or explosives
- fog machines
- gasoline and other flammable liquids
- gas-powered equipment
- halogen lamps
- highly combustible materials
- laser pointers
- lighted smoking materials
- noxious chemicals
- octopus/spider lamps (with multiple plastic shades/covers)
- pellet/BB guns
- pyrotechnic devices and smoke machines
- space heaters of any kind (unless issued by Residential Life)
- toasters/toaster ovens and hot plates
- waterbeds

## Appliances

All electric cords, plugs, and appliances must be in good condition. All appliances should have an Underwriters' label or a seal of approval from another recognized testing laboratory. Whenever possible, purchase/use Energy Star appliances. Do not overload wiring by turning on too many electrical devices at the same time, or using multiple outlet plugs or extension cords. Appliances should be unplugged during residence hall break periods.

Students may possess and use the following appliances in their residence hall rooms:

- UL approved appliances including coffee makers, air popcorn poppers, irons, and electric kettles with auto shut off feature.
- Microwave ovens of 700 watts or less and 0.7 cubic feet or less. Microwave ovens must be plugged directly into the wall.
- Portable Fan
- Portable handheld hair dryer
- Heating Pad
- Lamps with incandescent, compact fluorescent, or LED bulbs. Halogen lamps and octopus/spider lamps are not permitted.
- Refrigerators must be UL approved, 36 inches in height or less with a three-prong grounded plug.
- Electronic equipment such as televisions, DVD/Blu-ray players, electronic gaming systems, iPod docking stations, computers and tablets, and printers. *Students are advised to review OIT Policy: Acceptable Use of Computing & Information Technology Resources and OIT Policy: Wireless Airspace for more information about use of technology on campus ([www.oit.umass.edu](http://www.oit.umass.edu)).*

### **Lincoln, North Apartments, and apartments located within Birch, Maple, Elm, and Linden Halls:**

Students may possess and use the following appliances *within the kitchen area only*:

- UL approved appliances such as toasters, toaster ovens, electric cooking grills/skillets, blenders, crock pots, rice cookers, and/or vegetable steamers plugged directly into the wall.
- Use or possession of open flame appliances, deep fryers, hot plates, space heaters, personal air conditioning units or fog machines is not permitted in any residence hall. All electric cords, plugs, and appliances should have the Underwriter's label or seal of approval from another recognized testing laboratory.

## **Fire Safety - What to do in case of a fire**

Our residence halls contain a large number of students living in close proximity. Residents play an important role in preventing fires and responding appropriately to emergencies. Additionally, residents are responsible for complying with fire safety policies, procedures, and guidelines as stated in the Residential Life Community Standards.

### **If you discover a fire:**

- Close the door to the fire area (if possible).
- Activate the building fire alarm system.
- Evacuate and Call: 911 or 413-545-3111(from a cell phone), Report the fire location.
- Stay clear of the building and await further instructions.
- Use a portable fire extinguisher if: the fire is small, you can use it safely, you have been trained, and only after the building fire alarm system has been activated.

### **If you are in a fire area:**

- Stay as calm as you can.
- Feel closed doors from top to bottom for heat, using the back of your hand.
- Crouch low and open the door slowly.
- If safe, go into the hallway and close the door behind you. Leave the door unlocked so firefighters do not have to break down doors to search for trapped residents.
- Activate the building fire alarm system.
- Let others know they must evacuate the building.
- Go to the nearest stairway and leave the building in a prompt and orderly manner. If the stairway is full of smoke, go to another stairway.

### **If you are trapped by a fire:**

- Do not panic.
- Pack the space under the door with wet towels, clothing, or other material.
- Dial 911 413-545-3111(from a cell phone), and report your location.
- Go to a window, open it, wave a white or brightly colored cloth from it, and call to any people below.
- Do not break windows unless smoke is pouring into your room and you need fresh air to breathe.
- Stay near the window where you can be seen. Do not hide under the bed or in the closet.
- If you cannot get to a window, go to an inside corner of the room, curl up on the floor, and protect your face with a wet cloth. Stay calm, breathe slowly, and call out for help when you hear rescue personnel in the hallway.

## **Cooking Fire Safety**

- Never leave cooking food unattended.
- Keep the stove area free of combustible objects such as dishtowels, potholders, decorations or boxes.
- Keep pan handles turned inwards so they are not accidentally bumped.
- Should a stovetop fire occur, use an ABC fire extinguisher, baking soda, or a lid to extinguish the fire. If the fire has spread beyond the stovetop, get out immediately and call 911 (or 413-545-3111 from a cell phone).
- Never use flour or water to extinguish a cooking fire. Flour is combustible and water can spread fire.
- A fire extinguisher is located in every residence hall/apartment kitchen. Do not relocate the fire extinguisher and only use it in the event of a fire. If the extinguisher is used to extinguish a kitchen fire, immediately notify the Residence Hall Staff or Residential Service Desk immediately and it will be replaced. The University inspects fire extinguishers at least once a year, but you should periodically inspect the gauge to be certain the fire extinguisher is properly charged. If the needle indicates that it is undercharged or overcharged, call the Residential Service Desk for a replacement.

## **Fire Drills**

A fire drill will be conducted in your residence hall every semester to help you become familiar with evacuation procedures. During a fire drill, please do the following:

- Take your room key and ID, close and lock the door to your room/suite/apartment.
- Exit immediately to the nearest emergency exit; do not use or attempt to use an elevator.
- Meet in the designated holding space outside of your residence hall and wait for further instructions.

## **Fire Alarms**

The floors of all campus buildings are equipped with manual fire alarm systems consisting of pull stations and horns. Most are also equipped with automatic fire alarm systems consisting of heat and smoke detectors. Residence halls also have automatic sprinkler systems. For your safety, never tamper with these systems. False fire alarms are dangerous to residents and emergency personnel who must respond. False fire alarms are illegal and punishable by fines and/or imprisonment.

## **Emergency Plans for Students with Disabilities**

Students with disabilities have unique abilities and limitations. To be effective, emergency plans must be designed to meet the needs of the individual. At the beginning of every semester, staff members from the Office of Environmental Health

and Safety (EH&S), (413) 545-2682, will meet on site with each identified disabled student to review fire safety, fire protection, special needs, and personal emergency action plans.

- If you are on the ground floor, leave through the nearest clear exit.
- If you are not on the ground floor, do not try to use an elevator.
- If the fire is on your floor, you will have to leave the building by the stairs. Follow the plan EH&S has designed for your emergency evacuation.
- If the fire is not on your floor or you are trapped on the same floor as the fire, close the door to your room. Dial 911 and report your location in the building. Then, go to a window, open it, wave a cloth, and call out to any people below.
- Remain at the window until firefighters arrive.

### **Smoke Detectors**

A smoke detector is mounted on the ceiling or wall in your room. Some buildings also have heat detectors on the ceilings. Take the following precautions to ensure the safe operation of your smoke detector:

- If your smoke detector is working properly, the red light should be on. If the red light is not blinking, contact residence hall staff immediately.
- Do not cover or obstruct your smoke detector in any way.
- Report any power outages that occur to your hall staff.
- If a smoke detector activates and there is no fire or smoke, notify your hall staff.

### **Fire Extinguishers**

Fire extinguishers are located on each floor in each campus building and in each apartment. Use a portable fire extinguisher only if you have been trained to do so. Irresponsible use of a fire extinguisher can create a dangerous situation for other residents and could result in damage to personal property. Misuse of a fire extinguisher will result in conduct action.

### **Emergency Exit Systems**

The emergency exit systems in the residence halls include emergency lighting, emergency exit signage, exit stairways, and approved exit door hardware. As a resident, you should acquaint yourself with all of the nearest exit routes from your living area. Please do not tamper with any of the emergency exit systems.

### **Fire Alarm Systems**

Fire alarm systems, system components, sprinkler systems as well as individual detection devices shall not be tampered with in any manner. Nothing shall be hung on

or near any fire alarm system component, detection device, sprinkler, or pipe. Fire alarm system components and detection devices include but are not limited to: smoke detectors (system or local), audio/visual devices, wiring or wire-mold, heat detectors, manual fire alarm pull stations and “stopper alarms,” fire alarm control panels, sprinklers and pipes.

### **Candles and Incense**

Candles and incense, lit or unlit, are not permitted in students’ rooms or any other areas of the residence halls. Use of candles for religious use is described below.

Candles may be used for religious purposes only in designated spaces of residence halls. If you plan to light religious candles, contact your Residence Director or Apartment Complex Coordinator in advance for approval and submit this form: [www.housing.umass.edu/pdf/employ/student\\_staff/Religious%20ceremonies.doc](http://www.housing.umass.edu/pdf/employ/student_staff/Religious%20ceremonies.doc).

### **Smoking Policy**

Smoking, of any kind, is prohibited in residence halls. On July 1, 2013, the University of Massachusetts Amherst adopted the UMass Amherst Policy for a Tobacco- Free Campus. Use of tobacco products is prohibited everywhere on campus, inside buildings, and throughout the grounds.

### **University of Massachusetts Amherst Mass Amherst Code of Student Conduct – Section Relative to Fire Safety**

([http://www.umass.edu/dean\\_students/uploads/listWidget/25145/Code%20of%20Student%20Conduct%202013-2014.pdf](http://www.umass.edu/dean_students/uploads/listWidget/25145/Code%20of%20Student%20Conduct%202013-2014.pdf))

All undergraduate students are responsible for complying with the rules, regulations, policies, and procedures contained in the **Code of Student Conduct**, as well as those in other official University publications, and announcements which may be issued from time to time.

The University of Massachusetts Amherst Code of Student Conduct (Trustee Doc. #T-94-059) is applicable to any student enrolled in or accepted for an academic course or program, regardless of credits carried. As outlined in the Code of Student Conduct, Residential Life, as an administrative unit of the university, addresses policy or contractual non-compliance issues that occur in the residence halls involving University of Massachusetts Amherst students and/or their guests. The Code of Student Conduct and the Residential Life policies and procedures apply in and around UMass Amherst residence halls.

#### **Fire Reporting      Call 911 (545-3111) from a cell phone) to Report Smoke or Fire**

The University of Massachusetts Amherst is required to annually disclose statistical data on all fires that occur within on-campus student housing facilities.

**For extinguished fires or evidence of past fires call:**

**The UMass Police Department (UMPD) at 545-2121 or  
Environmental Health and Safety (EH&S) at 545-2682**

## Department of Environmental Health and Safety Fire Safety Services – For Residential Life

### Fire Evacuation Drills

EH&S coordinates with Residential Life Staff and conducts fire drills within each residence hall once each semester (2 per year). In 2014, one hundred and two evacuation drills were conducted for residence halls. The purpose of these drills is to assure that all residents know the sound of the fire alarm, know their exit routes and that their prompt evacuation is expected. These unannounced drills are timed and monitored by EH&S for effectiveness. Observed problems or unusual conditions are reported to staff for follow-up. Residence Hall staff is present and assist with fire safety messages that are presented to residents at the conclusion of each drill.

### Life Safety Inspections

- Life Safety Inspections: EH&S provides inspection services for all residence halls, conducting inspections of common areas and mechanical spaces once per semester. Inspections are conducted by Fire Safety Services Technicians with appropriate follow-up and recommendations for corrective action, with secondary inspections as necessary. Particular attention is given to maintenance of exit ways, exit lighting, emergency lighting, fire doors, fire alarm and sprinkler systems, and portable fire extinguishers.
- Individual Room Safety Inspections: A safety inspection of each residence hall room is conducted by EH&S and Residential Life staff each January. Residents and residence hall staff are notified of any safety violations found. These may include the presence of candles, halogen lamps, flammable liquids, blocked smoke detectors and other unsafe conditions. Residents with violations are contacted, their rooms are re-inspected and fire safety issues are reviewed.
- 780 CMR Massachusetts State Building Code Certificate of Inspections: EH&S serves to coordinate and assist our State Building Inspector with annual inspections of each residence hall requisite for issuance of an annual Department of Public Safety Certificate of Inspection.

## Fire Protection Systems Inspection, Testing, and Maintenance

-All residence hall fire protection equipment is inspected, tested and maintained through a coordinated program involving Residential Life Facilities Operations, EH&S, and system maintenance contractors.

- *Fire Protection System Inspections:* Once each week a Fire Safety Services Technician performs a visual inspection of residence hall fire alarm and major fire protection system components to assure operability and report on any unusual conditions.

- *Fire Alarm Systems:* Under contract, a system maintenance contractor provides semi-annual fire alarm system testing in each residence hall. These tests include verification of system performance including audio-visual devices, and manual pull stations. EH&S assists by inspecting single station smoke detectors during January room inspections. In addition, during January EH&S conducts inspections and operational testing of each fire alarm system.

- *Fire Sprinkler Systems, Standpipe Systems, and Fire Pumps:* Once each summer water based fire protection systems are inspected and tested. These tests include verification of water flow, fire pump capacity tests, testing of flow indicating devices and fire pump controllers. In addition, each of our ten fire pumps is run tested once a week to assure operability. Any identified deficiency or maintenance issue is followed-up with an appropriate service request. EH&S staff coordinates with and assists a sprinkler maintenance contractor when such service is necessary.

## Fire Extinguisher Service

- All residence hall portable fire extinguishers are inspected, and serviced by an EH&S Fire Safety Services Technician and fire extinguisher shop student staff. This includes annual programmed service, as well as repair, replacement, and charging as necessary and requested. In addition to inspections as part of annual maintenance, fire extinguishers are inspected once each semester as part of our life safety inspections.

## Fire Safety Education

Educational programs are provided by Environmental Health and Safety (EH&S) Fire Prevention Staff to all RA's and Peer Mentors annually. Programs are also provided periodically in residence halls on request. These programs include fire safety regulations, fire reporting, action items to be taken in event of fire, fire extinguisher use (for RA's) and a fire protection systems overview. Coordinated with the Dean of Students Office, on-campus residents identified violating Residential Life fire safety policies through the UMass Amherst Code of Student Conduct judicial process, are required to

attend a fire safety educational program. This training is provided by the EH&S Fire Prevention Services Supervisor and Fire Safety Technicians.

### Agency Liaison and Code Enforcement

EH&S staff provides plan review, project monitoring, and inspection services for various Residential Life projects. Serving as liaison to the State Building Inspector and local Fire Department Officials, EH&S assists with the acceptance process and resolution of Building Code or Fire Prevention Regulation issues.

### Emergency Service Response

EH&S staff are available 24/7 to provide fire and fire alarm response. EH&S maintains a presence on campus during in-session time periods with some shift coverage on a stand-by basis during summer and intersession. During fire or fire alarm conditions, EH&S will provide assistance responding to fire department units. This assistance will include providing incident information, building information, key access, residence hall staff interface and assistance to residence with disabilities. Should an incident require investigation and follow-up, EH&S staff will work closely with State, Amherst Fire, and UMPD officials.

## University of Massachusetts Amherst Residence Hall Fire Protection Systems

All on-campus student housing facilities are equipped with fire alarm systems which include detection, alerting and notification features (see Fire SafetyTable-1). In addition, all residence halls are equipped with automatic fire sprinklers (see Fire Safety Table-2).

## **Future Fire Protection Plans**

The University of Massachusetts Amherst has aggressively implemented a fire protection upgrade plan for our residence halls. Fire alarm system upgrades have been made with a planned approach to improve design, take advantage of new technologies, and to continue to improve life safety for all occupants. In addition to state of the art fire alarm and sprinkler system installations with our newest residential area, Commonwealth Honors College Residential Community in 2013, Lincoln Apartments Buildings 1, 5, 10, Brett Hall, Gorman, and Prince Hall, have received fire alarm system upgrades since 2013.
