

Emergency Eyewash Station Weekly Inspection Checklist

Please flush eyewash stations(s) weekly and check for the following:

- Is the water clear?
- Are the jets working properly?
- Is the area around the station clear of obstructions?
- Is there a bucket located under the eyewash to collect the run off?
- Are they leaking?
- Contact the Physical Plant service desk at 413-545-6401 or submit a work order request at: <http://www.umass.edu/facilities/requests> to repair the unit.
