

Lab Coats are an important component of personal protective equipment that must be worn regularly when working in laboratories. The University has a lab coat management program to provide lab coats for all lab members which includes a laundering service. Before ordering a lab coat please check with faculty supervisors to ensure that an additional lab coat needs to be ordered and that there aren't sufficient lab coats already in the lab. The cost of a lab coat is not charged to an individual but to their department or college.

Lab Coat Order Form

First Name:

Date:

Last Name:

Building for Delivery:

Email:

Name Label on Coat:

Faculty/Supervisor:

Department:

Type of Coat: Please place a check mark beside the type of coat you will need. The correct size can be determined by trying on lab coats before or after lab safety training sessions or by dropping by Draper Hall room 102. Please email labcoats@umass.edu for a fitting appointment.

Poly Cotton (white)

Style:

Long/Tall? _____

Size:

Flame Resistant (blue)

Size:

User Supplied Coat (set-up only)

It is anticipated that most of the time laundering can occur during a week when there is no lab activity (holiday breaks or vacation). However if you need to continue working in the lab while your lab coat is out for laundering there are 'Courtesy Coats' available for your use at each lab coat room. For frequent laundering, please contact us if you need a second coat.

Please submit this form to a training session instructor or drop off at the EH&S front desk in 117 Draper. You can also scan, or take a photo, and email the form to labcoats@umass.edu.
